

U-Scan3 Self-Checkout

Designed for express checkout

High Service Option for your Shoppers

The U-Scan3 offers the convenience of self-checkout in a compact design. It's equipped with a bagging platform with the capacity for 3 bag racks. This unit is designed for express checkout lanes and medium-sized orders. Shoppers will appreciate the time-saving convenience provided by the U-Scan3. The U-Scan3 requires only one attendant to supervise four stations, in less than 75% of the space allocated to regular lanes.

Measurements are approximate. U-Scan[®] layout availability is subject to individual store set-ups, e.g.: accessibility to electrical outlets, width of shopping carts, direction of exit, etc.
