

U-Scan5 Self-Checkout

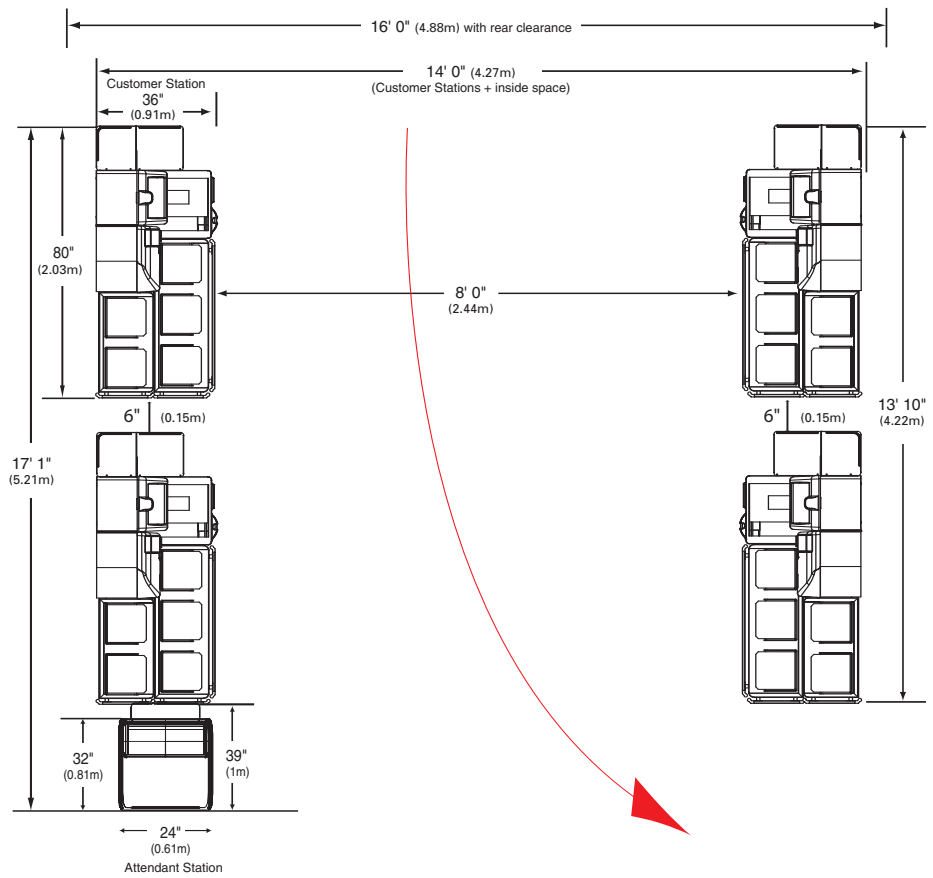

Maximum flexibility

Time-Saver for Shoppers in a Hurry

The U-Scan5 offers the convenience of self-checkout with increased capacity. The bagging platform has room for five bag racks, making it ideal for larger orders. The U-Scan5 requires only one attendant to supervise four stations, in less than 75% of the space allocated to regular lanes. With this larger capacity, U-Scan5 will cut the lines at your standard staffed lanes too, improving service for ALL.

Measurements are approximate. U-Scan® layout availability is subject to individual store set-ups, e.g.: accessibility to electrical outlets, width of shopping carts, direction of exit, etc.
